Please join us for a non-pizza lunch and conversation about J. Kim Wright, Esq.'s perspectives on her career

"I am, first and foremost, in everything I do, an advocate for systems change in the legal profession, a set of values and models called Integrative Law. I've arranged my life to follow my passion and values and to connect with lawyers who are changing how law is practiced by following theirs."

Attorney Wright literally travels the world working with attorneys who are trying novel approaches to building Peace and making Change.

The American Bar Association named her a Legal Rebel in 2009 and asked her to write a book about what she was discovering. *Lawyers as Peacemakers* was published in 2010 and was one of the ABA's bestsellers.

The ABA published her second book at the end of 2016. *Lawyers as Changemakers, The Global Integrative Law Movement*, became another bestseller.

To learn more about Attorney Wright, please come meet her and talk with her about her unique legal career.
